# CCTV SYSTEMS

We are proud Hikvision Partners (Analog, IP, VMS and Special applications) as well as Dahua Systems Integrator for all their systems. Further to this we are Proud Distributors for Forbatt with their TVT, Sunel and Kedacom CCTV Systems With a Speciality in Number Plate Recognition

The Advancements made in the CCTV field has gone from a nice to have to a must have. Providing countless industry Specific Solutions "Including Yours" with the right combination of Head End Equipment, Structured Cabling and End of Line Devices. Configured correctly (giving you full value for your system's cost to company). Using the latest deep learning algorithms that our products provide, you can actively monitor Intrusion Detection, Facial Recognition, Facial Detection, Point of Sale Monitoring and Alerting, People counting, Alarm Monitoring, Time and Attendance and much much more...

An onsite assessment and attentive listening face to face meeting with you, will enable us to provide you with a system that will far exceed your expectations and make the money spent worth every rand. Through this we can re-invent your existing systems potential with minimal additional cost.

# INTRUDER DETECTION SYSTEMS (ALARM SYSTEMS)

Alarm Systems – Wired and wireless, Industrial or Domestic.

The old saying “an alarm is an alarm and nothing more” is no longer true. An alarm Intruder Detection system designed and installed by us based on your exact needs, by highly trained technical teams, that have in-depth knowledge and training, not only on the products but also top-class installation habits is no longer just an alarm.

Now Intrusion protection with alarm systems means comfort and automation, fire and life safety, and video surveillance – all integrated in one.

Using the correct structured cable after doing the required electrical calculations pertaining to resistance, watt power, back-up requirements, etc. We have the ability to set up and program your System to Satisfy your most complex needs in an easy to understand and user friendly way, ensuring a good night's rest knowing your system works 120%.

# PERIMETER SECURITY

## Perimeter Security through Nemtek and JVA Electric Fence Systems for Domestic, Farming and Industrial applications with C.O.C. Certificates (Certificate of Compliance.)

Perimeter Security is your first line of defense and must be designed and installed to give your early warning of a potential intrusion threat. (With minimum or no false alarms). Giving you enough time to react in a structured and planned manor to ensure your Family's or Company's safety before the intrusion becomes a face-to-face threat.

Linking your electric fence to your existing Intrusion Detection System (Alarm) will give your armed reaction service provider the additional response time to come to your aid before a situation gets out of control. You can also add fence monitoring for additional Security.

Our highly trained teams with over 5 years of experience and continuous training, can install, maintain, and do fault finding on any electric fence system to keep it working optimally 24/7. We strive to keep up to date with the criminal world's newest innovations to bypass your perimeter security and work closely with the manufacturers to nullify the criminal's latest tricks.

JHD Security Solutions also provide real time monitoring especial for Town House and Lifestyle Complexes

**JHD Security Solutions provide the latest onsite and offsite electrical fence monitoring solutions for your peace of mind and to assist us in providing prompt technical assistance 24/7**

# ACCESS CONTROL SYSTEMS

Access control, in today's Society, has become a must have, as part of your first line of defense tools.

We strive to provide cost effective customer need based Systems that can also be integrated into your CCTV and alarm systems. This provides you with a Complete Security Solution that include time and attendance, facial recognition and or Biometrics etc. These systems will be set up for you to your specific needs, including time based, lock out, access notifications and much, much, more.

The time and attendance feature using systems integration with manufacturers deep learning algorithms and provide you with a total solution that can be linked to almost all payroll systems.

With System Integration to your CCTV System, static systems like gate automation, boom gates, turnstiles, PPE, health monitoring, body temp etc, can go a long way to Provide you a safe easy to use monitoring system and boost your HR Employee Care Profile.

These systems can be used with Biometrics, Card and tags, Mobile apps and visitor management systems depending on your Home or Business needs, Complex or Hospitality needs, including Products like Hikvision, ZKTeco, Dahua, Salto, PAXTON, Dormakaba and many more. Don't forget the latest blue tooth and wi-fi technology "Fluss" access control. Multi-Layer verification and Number Plate recognition is also possible and practical to do for additional Protection
